Where your materials go to be recycled

- Paper is recycled into egg boxes.
- Glass is melted down and used to make new bottles for local products such as Bulmers and Baileys.
- Plastics are used to make pipes for the agricultural, civil engineering and construction industries.
- Aluminium cans are melted down and used to make ingots that contain enough metal to make 1.5 million new drink cans.

Benefits of recycling

- Helps the environment.
- Creates local jobs.
- Cuts the cost of waste disposal.

What to expect when you visit

At our centres we have containers for different recyclable materials. To make your visit easier and quicker please **sort your materials at home**. All items for recycling should be clean. Our staff will be happy to help you in any way they can.
